

CREEL (HARVEST) AND LENGTH LIMITS

The tables that follow give statewide creel (harvest) and length limits for major sport fish and exceptions for major rivers and lakes. Regulations for many smaller lakes and boat access areas are posted on site, and posted regulations are in effect (see "OTHER USES" under Department-owned Lakes, Ponds, Streams or Boat Access Sites, page 14). For smaller lakes, information can be found online at: www.virginiawildlife.gov/fishing. Creel limits are per person per day.

REELFOOT LAKE

TENNESSEE

REELFOOT LAKE is located in the Northwest corner of Tennessee. This 15,500-acre lake is located 5 miles from the Mississippi River, a major migratory path for waterfowl.

REELFOOT LAKE is the only large, natural lake in Tennessee and one of the world's greatest natural fish hatcheries making it a favorite fishing lake of America's Pro and recreational fishermen. Created by the New Madrid earthquakes of 1811-1812, the shallow, cypress-filled waters are ideal for crappie, bass, bluegill and catfish.
